

BUCHU is a stimulant, and of itself may fail to effect a cure, but Buchu, when scientifically combined with Bromide of Potassium and other ingredients, produces a sedative effect, and causes a healthy natural swelling, stopping pain and inflammation, and causing the repairs and nutrition of the tissue to be greater than the waste, thus preventing decomposition and decay, and gives nourishment, health and vigor to the system.

THE HICKMAN COURIER.

SATURDAY, : : : : AUG. 5, 1871.

NEXT Monday is the day of election.

NEXT Monday is the election; the

most important one, perhaps ever held

in Kentucky—not only is it important

to Kentucky, individually, as a State, but

the influence that will be exerted by it

on the National election to come off next

year makes its importance so great.

That the election on the 7th of next

August, in Kentucky, will have a ma-

terial and perhaps controlling influence

on that election no one can doubt.

Hence the almost superhuman exertions

that are being put forth by the radical

party in this State; not that they have

any hope of succeeding in electing any

part of the State ticket, or the hope of

electing but a few members to the Sen-

ate or House of representatives, but do

hope to decrease the democratic majority

in the State; and, if they succeed in

doing so, it will have its influence, and

to be honest, we have great fears that

they may succeed that far.

Therefore it is incumbent on every

Democrat in the State to support, by his

influence, and by his vote, the man chosen

by the party as their standard bearer.

When a man has been nominated by

the party, every man who is opposed to

the doctrine of Radicalism should forget

the little animosities of the past, and

vote, not so much for the man, as for the

principles he has been chosen to represent.

Nearly all of the leading candidates

for the Presidency have been interviewed

by correspondents specially sent out for

that purpose by the New York Herald,

and the result is found in five or six solid

columns of that paper. On one point

the Democratic candidates seem to be all

agreed, and that is that the Republicans

will be forced to renegade Grant.

While he is set down as their only avail-

able candidate, it is very plainly intimated

that he is not available enough to be

elect. The interview with ex-Senator

Hendricks will be found in another

column.

We understand that the Radicals of

the District are generally supporting

Clark; that when Hale was alone an-

nounced as a candidate, they talked of

running Dr. Landrum as a candidate of

their own, but as soon as Clark was an-

nounced as a candidate, the idea was

abandoned, and Dr. Landrum, the pro-

posed Radical candidate, is now throw-

ing all his influence for Clark.—Colum-

bia Dispatch.

All we ask of the good people of

Hickman and Fulton counties is, to

give to Bill Clark a fair and free fight.

Next Monday is election day.
Let every democrat who has the success of his party at heart, and who desires to be rid of the present democratic government at Washington, be certain to go to the polls next Monday and vote. Let no trifling circumstance induce you to neglect this matter. Let the majority in Kentucky be of such magnitude as to give encouragement to the Northern democracy, and the result will be that in 1872 we shall carry the whole country and elect a democratic President. Give one day to the interest of your State and vote your full strength.

The Senatorial Race.
Our information from this Senatorial District is decidedly favorable to the triumphant election of Capt. Wm. C. Clark. His friends confidently expect to carry each county in the District, but whether their predictions shall prove true or not, remains to be tested. It is but justice to say, that Hale's friends are also confident of his election. Next Monday will tell the tale. We want the deliberate unbiased judgment of the people, untroubled by irrelevant prejudices or the personal exertions of partizan friends.

The candidates are both worthy and true gentlemen, and have visited each and every precinct in the three counties, discussing jointly the issues of the day. It is between them as they presented themselves then that they should be judged, and not by reports which may be jumped just before the election. We believe the aspirants themselves would spare a triumph obtained by any unfair means, and their respective friends should therefore not countenance any such resorts. We therefore beg the liberal men to stand firm, because they are right, and not to be influenced from their honest convictions by any jumped up reports for or against, and if they will do so, the victory is ours. The people should countenance nothing that the aspirants themselves did not charge when face to face.

Proscribing Democrats.
We have heard some extreme men assert that they would vote for no Democrat who favored negro testimony. These gentlemen go so far as to refuse to vote for Leslie and Carlisle, because they declared themselves in favor of the proposition. We deplore the violent and extravagant feelings which lead to such declarations, and appeal to every patriotic impulse for more generous feelings. No Democrat should be proscribed for favoring or opposing such measures, because no party principle is involved.
Again there is a few who will vote for Leslie, Carlisle, Gleason or Arnold, and yet proscribe Clark because of his position, when each of the above proclaim daily their endorsement of the same position. Why proscribe Clark and vote for Gleason who holds precisely the same views on the question? Why proscribe him, and vote for Arnold, who holds the same. Why proscribe him and vote for Leslie and Carlisle, who hold the same?

We regret that some have exhibited an illiberal spirit towards Clark. The proud old democracy of Graves have time and again endorsed him, and we want no better endorsement. In the last contest he made his home precinct, where over 200 Democratic votes were cast, only FOUR of his neighbors could be induced to vote against him, and this too when he was running against one of the strongest and most popular men in the Purchase. When a man's own neighbors thus stand by him strangers need not fear his good metal.

Terrible Disaster.
The Staten Island Ferry boat, between Staten Island and New York City, exploded last Sunday, killing 50 passengers outright and wounding 120. The scene was beyond description. Men were struck dumb with their loss of wives and little ones, and women were distracted at having lost their husbands and children, while the little children are crying for their parents who are lost. The front end of the boiler was suddenly blown out, lodging on the bow, thirty feet distant. The forward part of the boat, upper cabin and all, was instantly shivered and split into a thousand pieces.

The Hon. Thos. C. McCreery is reported quite ill at his home in Owensboro. The Senator has been quite a sufferer during the summer, and his own papers report that he is now confined to room by a monstrous carbuncle upon his neck.

Capt. Clark and Major Hale.
The Senatorial contest in the counties of Hickman, Fulton and Graves, is spreading out into warm proportions. The race is made interesting because of an alignment described by the politicians of the day as the Liberal and Ultra wings of the Democracy. Both of the contestants are gentlemen well worthy of support, both are good democrats, but differ widely as to questions of policy, and solely upon questions of policy. We are firmly convinced that the best interest of our country demands the election of Capt. Clark. Clark's position is sustained by Gov. Leslie, Lt. Gov. Carlisle, and our entire State ticket. The question of negro testimony is brought before the people of Kentucky precisely as was the negroes freedom, and negro voting, and we have to deal with it precisely on the same terms. The negro votes in Kentucky by national law, and any one obstructing or interfering with their privilege to vote, is subject to fine and imprisonment by national law. The negro enjoys his freedom in the same way, and any interference is punished by national law. Now, the same national law demands that he shall be a witness, and punishes any obstruction by fine and imprisonment. We obey the two first from policy, then why all this furious excitement and opposition to the last, which is the least compromise of the three.

Our regular nominee for Lieut. Governor, Mr. Carlisle, appreciating the situation, caused by our State law conflicting with the national law on this question, introduced a bill so amending our laws of evidence as to allow the negro to testify in our State courts, principally for the reason that it would relieve the Judges and Magistrates of the danger of being fined and imprisoned for refusing to admit it, and for the additional reason of placing our State government in harmony with the national government.

Gov. Leslie, our Democratic nominee for Governor, in his opening speech at Frankfort, declared himself, in favor of negro testimony.
We believe all our State Judges, unite in a prayer to our Legislature asking that our laws be so amended, as to relieve them of the danger of fine and imprisonment.

Each of our court officers in this District, Judge Lindsay of the Supreme Bench, Judge Boon of the Circuit Bench, and C. L. Randle, our Commonwealth Attorney, have each declared publicly and privately, that they favored the admission of negro evidence.
Here is an array of endorsement of the position taken by Capt. Clark on this question which challenges any denial.

The ultra men would have our Judges and magistrates refuse negro testimony, subjecting themselves to fine and imprisonment, when the national law demands his reception as a witness, and yet not an officer of the election or any discreet citizen can be induced to take the responsibility of refusing to permit them to vote. Is it just, then, to require others, by State law, to refuse to permit them to testify.
There is just as much sense in our refusing to acknowledge the negro's freedom, or his right to vote, as there is in his right to testify, because all three are now established by national law.

This liberal view promises to extricate the country from its war strifes and sores, and place political parties solely and purely upon questions pertaining to a state of peace, such as tariffs, taxation, etc. This view promises a bright future both to the North and the South, and we honestly believe will secure victory to the National Democracy in next year's Presidential race. The Democracy now control 16 States, 15 of which were won solely upon this liberal view and under these liberal promises and professions. Shall we here in Kentucky by an ultra course drive these 15 States from us, or shall we defer some what to their views? See the result of this liberal policy in Tennessee and Missouri. The liberal Democracy is there a live party, and promises a glorious future of fraternity and prosperity to the country.

What does the ultra side promise? It insists on keeping in our statutes a State law excluding the negro from testifying, which the State is powerless to enforce, and which is in conflict with the national law on the same subject. The national law punishes by fines and imprisonment our State Judges and Magistrates for obeying this very State law, and yet the State affords no protection. If these gentlemen insist on our Magistrates and Judges refusing negro testimony and obeying State law, when they know the national law will find them for so doing, we ask if justice don't demand that they should pay their fines out of the State treasury. Let the people attempt to shoulder all these fines, and taxation will be piled mountain high on Kentucky. It is to escape this awkward position that prompts the liberal Democracy.

Let Us Reason Together.
Is it possible for the calm calculations of reason to penetrate beneath a high political excitement, and by a resume of facts, obtain a consideration of truths, which all our people have known and felt? Is this great country, once rich and happy, then drenched in fraternal blood, and now torn, and diserved in every element of society and government NEVER to find a haven from the storm of passion which scattered its brightest interests to ruins? Has the bloody scenes and terrible realities of civil war taught nothing to the North and is it so soon forgotten by the South? It's black pall, speaking death, desolation and grief, hung over every foot, and there were few good hearts in either section, whether as soldiers in the field or citizens at home, whose prayers did not daily ascend to the God of eternal mercy, to stay the black hand of ruin, and bless again our land with peace. What household has not felt these pangs, and who has not prayed this prayer? But the extreme passions and prejudices of both sections would find no terminus but in carnage and ruin, and the noble head of Stephen A. Douglas backed by the peace loving people of the North had to bow to the stormy passions of Thaddeus Stevens, precisely as the patriot heart of John Bell yielded to the eloquent prejudices of Wm. L. Yancy. Good men like Clay and Webster, lifted their warning voices, as step by step our maddened country rushed to its ruin, but their statesmanlike appeals were unheeded. Could the fathers of 1820 have realized the bloody facts of 1860, might not the gradual approaches to dissection and strife have been checked and made to yield to the blessed appeals of reason for peace.

Grim visaged war with all its horrid details has passed, but its envenomed grasp yet sits the hearts of many. Extreme men North and extreme men South, clinging to the causes of strife, and would drown the appeals of reason, and stifle the efforts of liberal men towards a permanent peace. "My way or none," no concessions, no compromise, is the cry that comes from extreme men North and South. A giant fraternity of liberal men—the Northern Democracy—step forward amid the debris and relics of bitterness and hatred, ignoring all the "dead past," and points the country to a permanent haven of peace and prosperity. Shall the South yield all and the North nothing, or shall the North yield all and the South nothing? Den. Butler and his Radical cohorts say "we are the victors, and must have our way or none." Extreme men of the South say "force us to what you will, but we shall yield nothing against the views to which we have been educated." The Northern Democracy say, "let us have mutual concessions and mutual forgiveness, and look to the future and not to the past, for blessings upon our country." This is the state of political parties to-day, and we appeal to the liberal and conservative men of the country to rally to the support of liberal measures and liberal men. Can the North expect love and fraternity from the South so long as it follows the vindictive and proscriptive leadership of such men as Butler? We all answer, no. Can the South expect justice and equality if we proscribe liberal men, and continue to agitate old war sores, such as the questions pertaining to the negro, which whether right or wrong, are objectionable and inflammatory to the Northern mind? The Northern man will answer, no. Then, shall this strife cease, and mutual efforts towards conciliation, concessions, and peace, be made, or shall a mutual agitation continue, each extreme gathering venom and strength from the other, until reason and peace is again drowned in the tumultuous roar and excitement of prejudice and passion. Politicians, with no higher virtue than vaulting ambition, play with terrible effect upon the prejudices of a community, and about some doubtful "constitutional construction and saws," which they themselves do not comprehend, work up an excitement which overruns the better intentions of men. Let the liberal men of the country arouse and vote for liberal men and liberal measures. Let us say to the world "we are for peace and rest to our distracted country," and if bitterness and strife continue in the future, the responsibility and blame must be upon other heads. The duty devolves upon liberal men, whether Democrats, Americans, Whigs or Know Nothings.

Another War.
The telegraph begins to give intimations of the possibility of a war between Italy and France, which has been fore-shadowed for months past. Abusing France is a favorite pastime just now with Italian editors, but the ministerial organ *La Liberte*, alluding to the recent French loss, speaks thus cautiously: "Let us show no weakness, but a little judgement. Eight millions subscribed in a few hours represents a great army, and great armies should be respected, especially when one has but a small one to oppose them."

GOVERNOR SENTER'S declaration that he will pardon no person convicted of carrying or using concealed weapons is favorably commented upon by the press of the country.

THE overwhelming strength of the Democratic party in this State has become a source of confidence and security among the people that may result disadvantageously to the Democratic cause, not only in Kentucky, but in many of the Northern States where elections are to take place this fall. Kentucky votes first in the line, and sets the example which will almost certainly be followed by most of the other States. If by apathy and neglect we fail to go to the polls and thereby diminish our majority in this State, we must expect the same thing to occur in other States, where the party will become discouraged by our lukewarmness. On the other hand, if we make a strong effort and vote our full strength; if we show that we are earnest in the matter; that we are determined to checkmate the encroachments of the radical party and overthrow its power; if by a united effort we bring out the full strength of our party, the result will be such that it will be a matter of encouragement to the Democracy of our sister States, and induce them to make a stronger effort to be in the front rank in the fight. Kentucky is to bring on the engagement—let it be done in such a manner as to demand and secure the support of the Democratic party elsewhere. Let the voters of Kentucky remember that the Democracy everywhere are watching them—that much depends upon their action! Let every man who can possibly do so, go to the polls. Let no small matter deter you from voting, but go in your might.

THE States of California, New York and Kentucky are controlled by Democrats. The bonds of Kentucky are 1104; California 1113; New York 1004. The credit of those States is far above that of the States which the Radicals run. The State of Kentucky, which is the especial object of the abuse of the Republicans, is nearly at the head of the list.

DEATH OF CAPT. TODD.—Capt. David H. Todd, who was a half brother of Mrs. Abraham Lincoln, but an ardent Confederate throughout our late civil war, died at his residence in Huntsville, Ala., on the 30th ult., and by his request, his remains were clothed in his grey uniform, as a Captain of Confederate artillery, with his Confederate cap in his right hand.

ON the first day of September the law, known as the conventional interest law, goes into effect throughout the State. It is a carefully guarded act, authorizing contracts to be made by which parties may agree to pay interest on money not exceeding 10 per cent. a year, the legal rate remaining as heretofore at 6 per cent.

ARREST OF A COUNTERFEITER.—Mr. R. H. McGee, an old and high standing citizen of Trenton, Tenn., and one of the wealthiest residents of that place, was arrested in Memphis, last Monday, charged with passing counterfeit money. \$12,000 of counterfeit money was found in his trunk. He was placed in Jail by the Sheriff, but succeeded in making his escape by scaling the walls at night. He has since been recaptured, however, and is now in the Memphis Jail.

McGee is about 60 years of age, and stood at the very head of West Tennessee society. He was at one time the President of the Branch Bank of Tennessee, at Trenton, and also, the President of the Board of Trustees of Andrew College. He was a leading member of the church, and in every way considered far above suspicion of any such actions. He was a brother of Dr. McGee, formerly of Hickman.

A Human Holocaust.
Ninety-seven bodies found, and still dredging the harbor for more! Over two hundred maimed, mutilated and scalded, many of whom will die, while many others will be crippled for life. Such is the appalling resume of the catastrophe in New York harbor last Sunday. Civilization has its massacres as well as the Cherokees and the Communists. The woes of Wyoming have been the theme of patriot and poet for a hundred years; but that dread 5th of July, 1878, did not claim as many victims as this 30th July, 1871.

GOV. LESLIE, in his speech at our Court House, last Monday, said "he was in favor of the admission of negro testimony into our State Courts, that it was a legal question, and one that democrats differed widely on. There were good democrats on both sides. Judge Wm. Lindsay, who was present, entertained the same views. Why then does Clark believe as he believes as they do?"—*Mayfield Democrat.*

FULTON COUNTY FAIR.—We thank the Secretary for a complimentary ticket to the above fair, which commences at Hickman, Ky., on September 26, and continues five days. The premium list is attractive, the enterprising citizens of Hickman, alone, giving \$375 in special premiums. Geo. Warren can engage rooms at the Planter's House for us, for we intend to be on hand.—*Dyersburg Gazette.*

ON Wednesday of last week, Miss Sallie McKee, of Boyle county, eloped with her young nephew, Thomas McKee, who was married to him at Aberdeen, Ohio, by Squire Massie Beasley, on the succeeding day. The bride is a sister of the Hon. Sam McKee, now of Louisville, and her husband is the son of her brother William.

THE contest for the democratic nomination for the presidency will probably be between Hendricks, of Indiana, and General Hancock.

THE State Teachers' Association of Kentucky will hold its annual meeting at Paris, August 8. Half fare arrangements have been made with the railroad.

IN Paris Mrs. Kate Chase Sprague bought six and a half yards of lace the finest ever made, for \$18,000, and the shop where it was sold retained a photograph of the costly fabric and has it on exhibition.

Letter from Mayfield.—The Senatorial Race.
MAYFIELD, KY., Aug. 1, 1871.
DEAR COURIER:—I regret to announce that our friend, and candidate for the State Senate, Capt. Wm. C. Clark, has met with a grievous affliction. One of his children, a beautiful little child of four years, died yesterday, very suddenly. It was sick only 12 hours, and is to be buried to-day.

Clark and Hale closed the regular canvass at Lynnville yesterday, where it is said Clark made the most effective speech of the canvass.
You ask me to obtain a fair, disinterested statement of the election prospects between Clark and Hale. I have just had a conversation with Major Cargill, one of Hale's strongest friends. He says himself and most of Hale's friends give this country to Clark, though they hope something may happen to give it to Hale. Clark's friends claim it by 500, though I will be satisfied to tie Hale. If I were to write you the reports as many leading men tell me, I would safely put Clark's majority at 500. There are 13 voting precincts in this county, and the following estimate is given me by an old resident who has had much to do with county elections, and who will vote for Hale, though he has no hope of his election:

	CLARK.	HALE.
Hayes's.....	250	100
Osmonts.....	100	50
Lynnville.....	75	25
Cuba.....	75	25
Wingo.....	100	25
Farmington.....	75	25
Dukedom.....	75	25
Symonia.....	150	25
Housemans.....	150	25
Bowells.....	50	25
Fellicians.....	50	25
Mayfield.....	300	400
Total.....	1,325	1,325

It will be seen that Hale is given 100 majority in Mayfield, but I doubt if he carries it by so large a vote. I entertain no doubt of the result in Graves.
We have not estimated in this count the Radical vote, because no one knows how it will be cast. The Radicals poll about 500. The impression is that they will scatter according to their personal feelings, but if they do vote for Clark, as the Columbus Dispatch claims, it will swell his majority just 500 more.
If Clark's majority falls short of the table above, I shall owe you a fine hat.
P. S.—I have just met old man Barnett, who lives in the Potato patch in Hickman county, and he says, Clark will beat Hale 3 to 1 in his neighborhood.
Respectfully,
HARVEY.

Fulton Station.
While at Fulton Station last Saturday we were pleased with the evidence of prosperity going on there. When the war closed there was but one business house, now there are at least twenty. Every branch of business is carried on here. Carr & Eddings, the Collins Bros., Baling & Eddings, John Wyatt, etc., are selling dry goods. Parker & Albright, and Billy Sellers and Bro., formerly from Mayfield, are selling family groceries. They have a tailor shop, saddle shop, blacksmith shop, carpenters, tinners, painters, etc., all of whom seem to be doing a good business. They also have a fine hotel, kept by F. M. Kennedy, a man who knows his business; a fine school building and have secured the services of Mr. Denton, formerly of Millboro, to run it, a gentleman eminently qualified. The place is healthy, but possesses some of the best doctors in the State. Drs. Grid and Vent, of Nashville, whose practice extends forty miles from the Station.

The place has grown so rapidly we cannot keep up with it or its people, and cannot notice half of the people or its business, but can say that Fulton Station is a flourishing place, and will soon be a town of considerable importance. She ought to have her name changed. It was called after a railroad Station, when it had nothing but a depot house. It should now be called "Pascall" or "Carrville," the name of two of its best and most enterprising citizens. A bright future is in store for Fulton Station. Our late worthy fellow citizen R. H. Sellers, is dispensing Justice, for them, and a better man never lived. Honest to the core, he will do no one injustice. Long live Bob Sellers—*Mayfield Democrat.*

Leslie's Tour.
From the Paducah Kentuckian.
I have written you letters from the different counties in the Purchase where Governor Leslie has spoken. Every day that he speaks we hear of the representation of men of the country come to hear him and the effect of his speeches is to fully arouse the Democracy. I have heard the best stumpers in the South, Clay, Jones, Perkins and others, and I have never heard any man who held his audience better than Leslie. His speeches are full of instruction and not a hearer but is impressed with the truth of his statements. His visit to the first district will be productive of great good.

St. Louis Express Robbery.
On Tuesday, July 25th, D. W. Sander, a messenger of the U. S. Express Company in St. Louis, reported that while he had gone up an alley to deliver a bogus package to a fraudulent address, W. W. Kendall the driver of the express, had been gagged and robbed by two men, who then their escape with about \$3000. The driver was found in the wagon gagged and said that snuff and pepper had been thrown in his eyes. Two men were seen to escape from the wagon, but a close investigation leads to the suspicion that it was a job put up by Sander, Kendall and two confederates. Kendall is in the calaboose and Sander is in the custody of the express agent, and the matter will be thoroughly investigated.

When Kendall was taken to the police station his eyes showed no signs of having had pepper or snuff thrown in them, and in his mouth was so loosely adjusted, that he could have pushed it out with his tongue had he desired to do so. Besides this, his hands were at no time bound, and there was a pistol on the wagon seat beside him, which he did not attempt to use; nor did he make any demonstration calculated to attract attention in the street while the safe was being robbed.

The Faith Doctor—Rheumatism. Mr. Henry Keweenaw, in complying with your request I have to state that I have been a week ago to have you treat me for Rheumatism.

I was and am still afflicted, every night I suffered from cramps in my feet and legs. You commenced rubbing me on Friday last, and Saturday morning all was over. I have better use of them than when I came, my shoulders, arms and back I think feel little better—my knees have been worse than they had been for some time but are now improving.

On Monday evening and Tuesday, I felt much better than I had for several weeks, but the weather became quite cool and I became worse. This evening I am feeling better than this morning.

I think if you had given me three rubbings a day and about three hot baths a week, that I would have improved much better.

The liniment you have given me to use I will rub on three times a day when I feel any stiffness in my joints. I am sure it will be of great benefit to me.

I remain your friend, E. E. COOPER.
